Dr. Darrell L. Henderson - Plastic Surgery Associates

Dr. Darrell L. Henderson has been practicing plastic surgery in Lafayette, Louisiana since 1969. In the same year, he became certified by the American Board of Plastic Surgery. He completed his undergraduate education at the University of Mississippi, and obtained a Doctor of Medicine degree from the University of Tennessee Medical School in 1959. In 1960, he studied under one of the pioneers of plastic surgery, Dr. Mills, then went on to spend a one year fellowship with Dr. William Frackleton in Milwaukee, Wisconsin, associated with Marquette University. Dr. Frackleton was an early pioneer of hand surgery, having been selected by Franklin Roosevelt as one of eleven men to set up a specialty of hand surgery, and to treat hand injuries sustained during World War II.

Dr. Henderson not only does extensive and complex surgical procedures involving the hand and wrist, but also carries out congenital and pediatric plastic surgery, maxillofacial surgery, surgery of the head, neck and oral cavity, microvascular surgery, and cosmetic surgery. In 1976 he was one of the first surgeons in the United States to start using the carbon dioxide and Argon laser on skin lesions. Internationally renowned, he has lectured on the technique throughout the United States and in Australia, Russia, and Poland.

Dr. Henderson is a Diplomat of the American Board of Plastic and Reconstructive Surgery, Diplomat of the American College of Forensic Examiners, as well as being an active member of the American Society of Plastic and Reconstructive Surgery and many other national and regional societies. He has published medical articles in plastic surgery journals and authored chapters in plastic surgery books.

Dr. Henderson frequently serves as an expert witness in state and federal courts in Louisiana and many other states. He is respected and trusted by both plaintiff and defense lawyers and is considered one of the nation’s leading reconstructive & plastic surgery experts.

In his leisure time Dr. Henderson pursues many hobbies, including competing internationally with his chariot horses. He takes part in combined driving events across the country, and has been “long listed” to represent the United States in this equestrian sport.

Surgery Center Inc. Now Available Through BMM

Welcome to Surgery Center! Louisiana’s FIRST licensed, outpatient facility, and the 18th facility of its kind nationwide to open its doors in 1976 in Lafayette. Surgery Center strives to eliminate, as much as possible, a typical hospital environment, and its staff creates a relaxed, but professional, atmosphere.

Surgery Center is staffed with an anesthesiologist, nurse anesthetists, nursing staff, business office, and an administrator. Many of its employees have been with Surgery Center for ten, twenty, even thirty years, because they enjoy being part of a family of professionals who are humbled by the opportunity to serve the people of our local community, Acadiana, and surrounding areas.

Ayman Hamed, M.D.
Board Certified In Physical Medicine & Rehabilitation and Pain Medicine

Dr. Hamed is board certified in physical medicine and rehabilitation and pain medicine. He received his medical degree from Alexandria University in Alexandria, Egypt. Dr. Hamed completed a residency in physical medicine and rehabilitation at St. Francis Medical Center and Mercy Hospital in Pittsburgh, PA (currently known as University of Pittsburg). He practiced medicine full time at Baton Rouge Ochsner Health System specializing in interventional pain management. Dr. Hamed served as Head of Department of Physical Medicine & Rehab. More recently, he practiced interventional pain management in the Hammond and Denham Springs areas. Dr. Hamed currently owns a private practice in the Greater Baton Rouge area.

He holds extensive training and broad experience in a wide range of interventional pain medicine techniques and advanced procedures, and has a special interest and expertise in musculoskeletal and neuromuscular disorders.

Dr. Hamed is a member of the American Academy of Pain Medicine, American Academy of Physical Medicine and Rehabilitation. Common conditions that we treat in our office include: headaches and migraines, Fibromyalgia, arthritis, sports injuries, carpal tunnel and pain that affects the lower-back, neck, elbow, foot, knee and shoulder.

We place an emphasis on interventional pain medicine techniques and advanced procedures. We take a multidisciplinary approach to pain management.

Treatment options include:

- Epidural Injection
- Radio Frequency Ablation
- Discography
- Spinal Cord Stimulation
- Nerve Root/Branch Blocks
- Facet Joint Injection
- Disc Decompressions
- Discectomy
- EMG/NCVs

It is Surgery Center’s commitment to individual care of and attention to each patient that is unsurpassed and will always be its driving force.
Dr. Jorge Isaza
The Spine Institute at the Baton Rouge Orthopaedic Clinic

Dr. Jorge Isaza, an orthopaedic surgeon specializing in adult and pediatric treatment and surgery of the spine at The Spine Institute at the Baton Rouge Orthopaedic Clinic, is passionate about treating his patients with the most effective and advanced procedures available. He is extensively involved in the development of new technologies and treatment methods for spinal ailments, including the lumbar and cervical artificial disc, flexible rods and endoscopic disectomy. Dr. Isaza studied and trained in orthopaedic surgery at Tulane University, where he also completed a fellowship in spine surgery and pediatric orthopaedics. He is board certified in spine surgery and belongs to the Scoliosis Research Society and the North American Spine Society. He is also nationally and internationally published. A dedicated educator as well, he serves as a clinical assistant professor at Tulane University and a visiting professor at Dresser University in Philadelphia. Dr. Isaza also finds fulfillment in helping those less fortunate. He makes frequent trips to his home country of Colombia with fellow doctors and nurses to volunteer his time at a medical mission his brother-in-law founded, where they treat patients who would otherwise not be able to afford health care. The Spine Institute is one of the few spine care treatment centers in the region that offer minimally invasive spinal procedures. This approach is appealing to many patients because it offers a quick recovery time, allowing them to return to work and their normal daily activities within a day or two. “The future is geared toward minimally invasive spine surgeries,” Dr. Isaza says. “The technology is still changing, and The Spine Institute is at the forefront of developing new tools and procedures.”

Physicians’ Choice Physical Therapy
BMM now offers PT, OT and ST in the Greater Baton Rouge Area

Physicians’ Choice Physical Therapy is dedicated to not only meeting challenges brought forth by circumstances of injury or illness, but to decreasing pain, and restoring and maintaining functionality to our patients. Physicians’ Choice Physical Therapy provides the most modern and effective treatment in healthcare today. We do this through personalized service, accomplished by treating our patients with the utmost care and respect.

Ultimately, our goal is to be the best and most sought after physical therapy provider in our community by operating at full capacity while providing a rewarding and pleasant setting for our patients, therapists and staff.

Todd Truitt Janney, Sr.
Physical Therapist / Executive Director

Todd attended Louisiana State University and graduated from the School of Allied Health in 1991. He does Home Health along with practicing in our Brusly Clinic. He is also over our Worksteps and Functional Capacity Evaluation testing. Todd enjoys spending his spare time with his family.
CareCycle Solutions

Offering Home Health Services to BMM networked Attorneys

CareCycle Solutions is proud to be a new member of BMM’s provider network! CareCycle Solutions specializes in managing the needs of your client through the use of targeted healthcare services (Skilled nursing, Psychiatric Nursing, Physical, Occupational and Speech Therapy and Medical Social Worker Services). They can assist your clients by delivering these health care services directly to their home. This will benefit those clients who have transportation issues getting to therapy, recovering after surgery, medication non-compliant, and if at risk for opioid dependency. CareCycle Solutions want to be an extension of the attorney’s team to promote recovery, independence, and self-care.

Conquering the obstacles for physicians in Louisiana and Texas has been CareCycle Solutions targeted goal since 2003. They are now offering the benefits of proven methods to BMM’s network to promote an increase in positive outcomes for the clients, attorneys and physicians.

CareCycle Solutions serves the needs of BMM’s extensive network of attorneys throughout Louisiana providing:

• Skilled nursing
• Psychiatric Nursing, Physical, Occupational and Speech Therapy
• Medical Social Worker Services

Inside BMM is a quarterly newsletter published by Bayou Medical Management, PPO LLC. BMM does not prescribe medical advice. Comments are welcome.
